A GUIDE TO DRUGS CONTAINING ASPIRIN, ASPIRIN-RELATED COMPOUNDS, AND NSAIDs

You have been advised to avoid aspirin, aspirin-containing medications, and non-steroidal anti-inflammatory drugs (NSAIDs).

Some prescription drugs may contain aspirin – **ALWAYS** check with your health care provider before discontinuing any medication.

Below is a **partial** list of prescription and over-the-counter (OTC) products that contain aspirin, aspirin-related compounds, or anti-inflammatory agents:

- Advil
- Aleve
- Alka-Seltzer
- Anacin
- Anaprox
- APC (Empirin)
- Arthritis Pain Formula
- Arthropan
- Ascriptin & Ascriptin AID
- Aspergum
- Bufferin or Buffered Asprin
- Bayer
- Congesprin
- Cope
- Coricidin or Coricidin D
- Doan’s Pills
- Ecotrin
- Excedrin
- Empirin Tablets
- Feldene
- Ibuprofen
- Indocin
- 4-Way Cold Tablets
- Measurin
- Midol
- Mobic
- Momentum
- Motrin
- Naprosyn
- Pamprin IB
- Pepto-Bismol
- Perisistin
- Quiet World
- Sine-Off
- Triaminicin
- Vanquish
- Zorpin

**ALWAYS** check with your pharmacist to determine if medication available over-the-counter contains aspirin or is an NSAID.
